[ECF Nos. 82, 85, 86, 87], the Debtor's declaration submitted in support of confirmation [ECF No. 81], the papers and pleadings on file in the above-captioned bankruptcy case, judicial notice of which is taken; the Court having held hearing on confirmation of the Plan, with all appearances having been noted on the record; no objections to confirmation of the Plan having been filed or made at the hearings; the Court having stated certain findings of fact and conclusions of law on the record at the hearing, which are incorporated herein by reference in accordance with Fed. R. Civ. P. 52, made applicable pursuant to Fed. R. Bankr. P. 7052 and 9014; and good cause appearing;

THE COURT FURTHER FINDS AS FOLLOWS:

A. Arm's Length Transaction. The RSA and Plan and other documents and instruments (the "Transaction Documents") related to and connected with the transfer of assets to the DIP Lender set forth in the Plan (the "Transaction"), and the consummation thereof, were negotiated and entered into by the Debtor and the DIP Lender without collusion, in good faith and through an arm's length bargaining process. The DIP Lender is not an "insider" of the Debtor, as that term is defined in § 101(31). None of the Debtor, the DIP Lender, or their respective representatives engaged in any conduct that would cause or permit the RSA, any of the other Transaction Documents or the Transaction to be avoided under § 363(n), or have acted in any improper or collusive manner. The terms and conditions of the APA and the other Transaction Documents, including, without limitation, the consideration provided in respect thereof, are fair and reasonable, and are not avoidable and shall not be avoided, and no damages may be assessed against the DIP Lender or any other party as set forth in § 363(n). The consideration provided by the DIP Lender is fair, adequate and constitutes reasonably equivalent value and fair consideration under the Bankruptcy Code and any other applicable laws of the United States or any of its jurisdictions or subdivisions, including the State of Nevada.

В. Good Faith. The DIP Lender has proceeded in good faith and without collusion in all respects in connection with the sale process, in that: (i) the DIP Lender, in proposing and proceeding with the Transaction in accordance with the RSA and Plan; (ii) all payments to be made by the DIP

¹ Capitalized terms not otherwise defined herein shall have the meaning ascribed to them in the Plan.

Lender and other agreements entered into or to be entered into between the DIP Lender and the Debtor in connection with the Transaction have been disclosed; (iii) the negotiation and execution of the RSA and related Transaction Documents were conducted in good faith and constituted an arm's length transaction; (iv) the DIP Lender did not induce or cause the chapter 11 filings by the Debtor; and (v) the RSA and Plan were not entered into, and the Transaction being consummated pursuant to and in accordance with the RSA and Plan is not being consummated, for the purpose of hindering, delaying or defrauding creditors of the Debtor. The DIP Lender is therefore entitled to all of the benefits and protections provided to a good-faith purchaser under § 363(m). Accordingly, the reversal or modification on appeal of the authorization provided herein to consummate the Transaction shall not affect the validity of the Transaction, any terms or conditions of the Transaction or the DIP Lender's status as a "good faith" purchaser.

C. Free and Clear. In accordance with §§ 105(a), 363(b), and 363(f), the confirmation of the Plan shall be a legal, valid, and effective transfer and sale of the Debtor's Class A Membership Interests in its wholly owned subsidiary, 3G Productions, LLC (the "Transferred Assets"), and shall vest in the DIP Lender, through the confirmation of the Plan, all of the Debtor's right, title, and interest in and to the Transferred Assets, free and clear of all liens, claims, interests, rights of setoff, recoupment, netting and deductions, rights of first offer, first refusal and any other similar contractual property, legal or equitable rights, and any successor or successor-in-interest liability theories (collectively, the "Encumbrances"). The Debtor has demonstrated that one or more of the standards set forth in § 363(f)(1)-(5) have been satisfied. Those holders of Encumbrances who did not object, or who withdrew their objections, to confirmation of the Plan are deemed to have consented pursuant to § 363(f)(2). Those holders of Encumbrances who did object fall within one or more of the other subsections of § 363(f). All holders of the Encumbrances in the Transferred Assets are adequately protected by the distributions contemplated under the Plan.

D. Assumption of Executory Contracts and Unexpired Leases. The Debtor has demonstrated that it is an exercise of its sound business judgment to assume and assign to 3G Productions, LLC the executory contracts and unexpired leases set forth in Exhibit 4 to the Plan (the "Assigned Contracts"), and the assumption and assignment of the Assigned Contracts is in the best

interests of the Debtor and its estate.

IT IS HEREBY ORDERED THAT:

Plan of Reorganization for Small Business Under Chapter 11	02/20

3G PRODUCTIONS, INC.'s CHAPTER 11 PLAN OF REORGANIZATION, Dated July 20, 2021

Background for Cases Filed Under Subchapter V

A. Description and History of the Debtor's Business

3G Productions, Inc. ("3G" or the "Debtor"), is a Nevada corporation with a principal place of business in Las Vegas, Nevada, and offices in Cerritos, California and Fort Lauderdale, Florida. 3G was founded in 2004 with the goal of providing the best in sound production to a wide range of audiences, and has since become a full service event production team with expertise in audio, video, lighting, and production management.

On July 2, 2021 (the "Petition Date"), the Debtor filed its voluntary petition for relief under subchapter V of chapter 11 of title 11 of the United States Code (the "Code"), thereby commencing its reorganization case (the "Chapter 11 Case"). Brian Shapiro has been appointed as subchapter V trustee (the "Subchapter V Trustee") in the Debtor's Chapter 11 Case. Notwithstanding the appointment of the Subchapter V Trustee, the Debtor is fully authorized to continue operating its business as a debtor in possession pursuant to Code §§ 1182 and 1184, and with its existing management remaining in place.

The Debtor's Chapter 11 Case was filed for various reasons, all stemming from the fact that the COVID-19 pandemic drastically (and at times totally) shut down the market for live performances and events. This shut down dramatically reduced the Debtor's revenue, making debt service difficult, if not impossible, across the board.

Additional background regarding the Debtor, its operations, and its reasons for filing are included in the *Omnibus Declaration of Andrew D. Ross in Support of Emergency First Day Motions* [ECF No. 16]. Additional information regarding the Debtor's assets, claims, contracts, and operations can be found in its filed bankruptcy schedules [ECF No.3], as may be amended hereafter.

At the beginning of its Chapter 11 Case, the Debtor sought permission to obtain post-petition debtor in possession financing in the total amount of up to \$500,000 (the "DIP Loan") from 3G II, LLC (the "DIP Lender"). On or around the Petition Date, the Debtor also filed other initial motions for emergency relief in order to stabilize its operations and to ease its transition into chapter 11, including motions to pay employee wages, to avoid a shutoff of utility services even though the Debtor was current with its utility providers, and other relief. The Debtor also has applied for permission to retain and employ the law firm of Fox Rothschild, LLP as its general reorganization counsel.

The Debtor asserts that it has the ability to make the payments set forth in this Plan as a result of the New Equity Infusion (defined below).

Attached as **Exhibit 1** are copies of the Debtor's most recent pre-petition balance sheet and profit and loss statement. These documents are unaudited.

B. Liquidation Analysis

To confirm this Plan of Reorganization (the "Plan"), the Court must find that all claim and equity interest holders who do not accept the Plan will receive at least as much under the Plan as such claim and equity interest holders would receive in a chapter 7 liquidation. A liquidation analysis is attached to the Plan as **Exhibit 2** along with accompanying explanatory notes.

C. Ability to make future plan payments and operate without further reorganization

The Plan Proponent must also show that it will have enough cash over the life of the Plan to make the required Plan payments and operate the debtor's business.

The final Plan payment is expected to be made 30 months after the Effective Date of the Plan.

The Plan Proponent has provided projected financial information as **Exhibit 3**.

The Plan Proponent's financial projections show that the Debtor will have projected disposable income (as defined by Code

Debtor

3G Productions, Inc.

Case number (if known) BK-21-13384-nmc

Name

§ 1191(d)) for the period described in Code § 1191(c)(2) of \$0 over the next 5 years.

The Debtor's Projections are based on its recent historical operating results, and projections of future operations.

Consult with your accountant or other financial advisor if you have any questions pertaining to these projections.

- 10. <u>Ipso Facto and Similar Contract/Lease Provisions Ineffective</u>. Any term of any prepetition policy, prepetition contract, or other prepetition obligation applicable to the Debtor shall be void and of no further force or effect with respect to the Debtor and the Reorganized Debtor to the extent that such policy, contract, or other obligation is conditioned on, creates an obligation of the Debtor as a result of, or gives rise to a right of any entity based on (i) the insolvency or financial condition of the Debtor, (ii) the commencement of the Chapter 11 Case, (iii) the confirmation or consummation of the Plan, including any change of control that shall occur as a result of such consummation, or (iv) any transactions occurring under or pursuant to the Plan.
- 11 Default Under Plan; Remedies. The confirmed Plan is binding on every creditor whose claims are provided for in the Plan. Therefore, even though the automatic stay terminates on the Effective Date with respect to claims, no creditor may take any action to enforce either the pre-confirmation obligation or the obligation due under the Plan, so long as the Reorganized Debtor is not in Material Default (as hereinafter defined) under the Plan. In the event the Reorganized Debtor fails to timely perform any of the obligations in the Plan from and after the Effective Date, the applicable creditor or party-in-interest shall provide written notice thereof to all of the following: the Reorganized Debtor (kconrad@3glp.com; Attn: Keith Conrad), , and the Reorganized Debtor's counsel via email (baxelrod@foxrothschild.com; Attn: Brett Axelrod), of the default in writing in accordance with the notice provisions herein. If the Reorganized Debtor fails to timely cure the default as provided above, the applicable creditor shall be free to pursue any and all rights and remedies it may have under the contract(s) between the parties and/or applicable law, as modified by this Plan, and without further action by or proceedings before the Bankruptcy Court. Upon Material Default, any member of a class affected by the default: (i) may file and serve a motion to dismiss the case or to convert the case to chapter 7; or (ii) without further order of the Court has relief from automatic stay to the extent necessary, and may pursue its lawful remedies to enforce and collect the obligations owing to it under the Plan.

- 13. Exculpation. To the fullest extent permitted by applicable law, neither the Debtor, the Reorganized Debtor, 3G Productions, LLC, the DIP Lender, nor any of their respective representatives shall have or incur any liability to any holder of a claim or equity interest against the Debtor, or any other party-in-interest, for any act, omission, transaction or other occurrence occurring on or after the Petition Date in connection with or arising out of the Chapter 11 Case, the pursuit of confirmation of the Plan, or the consummation of the Plan, including without limitation, the administration of the Plan or the property to be distributed under the Plan, except and solely to the extent such liability is based on fraud, gross negligence, or willful misconduct as determined by a final order, but in all respects such persons shall be entitled to reasonably rely upon the advice of counsel with respect to their duties and responsibilities pursuant to the Plan. This exculpation is in addition to, and not in limitation of, all other releases, indemnities, exculpations, and any other applicable law or rules protecting such exculpated parties from liability.
- 14. <u>Judgments Void</u>. Any judgment, decision, or order obtained before the Effective Date in any court that is inconsistent with the terms, conditions and treatment provided by the Plan or the Confirmation Order shall be null, void, and without effect.

Nothing herein or in the Confirmation Order shall be deemed to be a waiver or the relinquishment of any rights or causes of action that the Debtor or the Reorganized Debtor may have or which the Reorganized Debtor may choose to assert on behalf of the Debtor's estate under any provision of the Code or any applicable nonbankruptcy law, including (i) any and all claims against any person or entity, to the extent such person or entity asserts a crossclaim, counterclaim, and/or claim for setoff which seeks affirmative relief against the Debtor, the Reorganized Debtor, or their officers, directors, or representatives and (ii) for the turnover of any property of the Debtor's estate. Nothing herein or in the Confirmation Order shall be deemed to be a waiver or relinquishment of any rights or causes of action, right of setoff, or other legal or equitable defense that the Debtor had immediately prior to the Petition Date, against or with respect to any claim left unimpaired by the Plan. the Reorganized Debtor shall have, retain, reserve, and be entitled to assert all such claims, causes of action, rights of setoff, and other legal or equitable defenses that they had immediately prior to the Petition Date fully as if the Chapter 11 Case had not been commenced, and all of the Reorganized Debtor's legal and equitable rights with respect to any claim left unimpaired by the Plan may be asserted after the Confirmation Date to the same extent as if the Chapter 11 Case had not been commenced. In accordance with § 1123(b)(3) of the Code, any causes of action that a Debtor may hold against any entity shall vest in the Reorganized Debtor in accordance with the terms hereof. After the Effective Date, the Reorganized Debtor shall have the exclusive right. authority, and discretion to determine and to initiate, file, prosecute, enforce, abandon, settle, compromise, release, withdraw, or litigate to judgment any such causes of action and to decline to do any of the foregoing without the consent or approval of any third party or further notice to or action, order, or approval of the Bankruptcy Court. No entity may rely on the absence of specific reference in the Plan to any cause of action against them as any indication that the Debtor or the Reorganized Debtor will not pursue any and all available causes of action against them. Unless a cause of action is expressly waived, relinquished, released, compromised or settled in the Plan, or any final order, the Debtor on behalf of itself expressly reserves all causes of action for later adjudication and, therefore, no preclusion doctrine, including, without limitation, the doctrines of res judicata, collateral estoppel, issue preclusion, claim preclusion, estoppel (judicial, equitable or otherwise) or laches shall apply to any causes of action upon confirmation or the Effective Date. Independent Accountants' Review Report

Board of Directors 3G Productions, Inc. Las Vegas, Nevada

We have reviewed the accompanying financial statements of 3G Productions, Inc., which comprise the balance sheet as of December 31, 2020, and the related statements of operations, and shareholders' equity, and cash flows for the year then ended, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's financial data and making inquiries of company management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Management's Responsibility.

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility.

Our responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the American Institute of Certified Public Accountants. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

Accountant's Conclusion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

Report on 2019 Financial Statements.

The financial statements of the Company as of December 31, 2019, were reviewed by Piercy Bowler Taylor & Kern ("PBTK"), whose partners and professional staff joined BDO USA, LLP as of July 1, 2020, and has subsequently ceased operations. PBTK's report dated June 16, 2020 stated that based on their procedures, they are not aware of any material modifications that should be made to the consolidated financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter - Going Concern and COVID-19.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As more fully described in Note 1 to the financial statements, the Company has been negatively impacted by the outbreak of a novel coronavirus (COVID-19), which was declared a global pandemic by the World Health Organization in March 2020. This condition raises substantial doubt about its ability to continue as a going concern. Management's plans with regards to this matter are also described in Note 1. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Notes to The Financial Statements Years Ended December 31, 2020 and 2019

1. Nature of Operations and basis of accounting:

Business activities

3G Productions, Inc. is a multi-faceted event production company headquartered in Las Vegas, Nevada with operations in Las Vegas; Los Angeles, California; and Miami, Florida, that provides services in live production, production equipment rentals and sales, audio, video and lighting installations and event staffing.

Liquidity and going concern and management's plans

The Company incurred a net loss of \$4,629,935 and had net income of \$17,853 for the years ended December 31, 2020 and 2019, respectively, and had working capital deficits of \$2,307,865 and \$1,774,701 as of December 31, 2020 and 2019, respectively.

The financial statements have been prepared on the going concern basis of accounting, assuming the realization of assets and the satisfaction of liabilities and commitments in the normal course of business. The majority of the Company's revenue is generated through events that require large gatherings of people, such as concerts, that are currently prohibited by government mandates to curtail the ongoing spread of COVID-19, a highly contagious coronavirus that was declared a pandemic by the World Health Organization. As the COVID-19 situation is dynamic, the Company does not currently know with certainty when large gatherings will be allowed. Accordingly, the Company cannot predict the extent to which its financial condition and results of operation will be affected. The Company has taken measures to reduce expenses and has taken advantage of the Coronavirus Aid, Relief, and Economic Security ("CARES") Act, including obtaining a loan under the Payroll Protection Program (see Note 7). Due to state government mandated restrictions, the Company is not expecting to generate significant revenues until restrictions are lifted. The Company is attempting to raise cash from debt and equity offerings to continue with operations. There can be no assurance that the Company will be successful in doing so.

In the event that the Company would be unable to meet its obligations and continue normal operations over the next twelve months, the Company would seek additional liquidity via loans under the CARES Act, though there is no certainty that the Company would be successful in such efforts. Alternatively, the Company could seek to reduce expenses by further curtailing operations, including furloughing or laying off employees, or through the sale of certain assets. Accounting Standards Codification No. 205-40, *Going Concern*, calls for management to evaluate whether there are conditions and events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern within twelve months after the date that the financial statements are issued. Because of the length of this look forward period and the substantial items that are outside of its control, and despite its intent and best efforts to overcome the challenges in the current environment, management concluded that there is substantial doubt as to the Company's ability to continue as a going concern. The Company is attempting to mitigate the impacts of the coronavirus on the Company through the plans described above.

2. Summary of Significant Accounting Policies

Basis of presentation

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("US GAAP") under standards issued by the Financial Accounting Standards Board ("FASB").

Concentrations, Related Risks and Uncertainties.

The Company's operations are concentrated in certain major customers located in southern Nevada, southern California, and south Florida (Note 3). Realization of its accounts receivable and future operations and cash flows may be affected by adverse changes in local economic conditions or in the financial condition of, or the Company's relationships with, its major customers.

The Company had cash or cash equivalents on deposit in excess of federally insured limits of approximately \$295,000 and \$75,000 as of December 31, 2020 and 2019, respectively.

Cash equivalents

Cash equivalents include highly liquid investments with initial maturities of three months or less.

Accounts receivable, net

Accounts receivable consist of amounts due from customers in the ordinary course of business and are carried, net of an appropriate allowance, if necessary, at their estimated collectible value. Management requires most new customers to pay in advance for services to be rendered. Receivables deemed uncollectible, as determined by management on a case-by-case basis, are written off. The maximum losses to be sustained in the event of not collecting are limited principally to the carrying value of the accounts receivable.

Investments in unconsolidated investees

The Company had previously invested in equity interests ranging between approximately 25% and 49% in entities but did not have the ability to exercise significant influence and, therefore, accounted for these investments at cost, subject to impairment adjustments, if necessary. In 2019, management of the unconsolidated investees entered into an agreement to sell the assets of the unconsolidated investees resulting in a loss on the investments of \$917,905.

Equipment, Net

Equipment (Note 4) is stated at cost, net of depreciation computed using the straight-line method over the estimated useful lives of the assets, after considering management's estimate of salvage value, which is typically substantial for sound equipment. The useful lives for equipment ranges between five and ten years.

Notes to The Financial Statements (Continued) Years Ended December 31, 2020 and 2019

Intangibles Assets

Intangible assets consist primarily of intellectual property, personnel and referral sources, customer lists, the trade names "Beach Sound" and "Beach Sound & Lighting" and employment agreements. The intangible assets are amortized over their estimated useful lives, which is ten years, and the estimated amount of amortization expense is \$277,935 for each of the next five years.

Revenue Recognition

The Company recognizes revenue in accordance with two different accounting standards:

- 1) Accounting Standards Codification ("ASC") Topic 606, Revenue from Contracts with Customers, and
- 2) ASC Topic 840, Leases

Under Topic 606, revenue from contracts with customers is measured based on the consideration specified in the contract with the customer, and excludes any sales incentives and amounts collected on behalf of third parties. A performance obligation is a promise in a contract to transfer a distinct good or service to a customer and is the unit of account under Topic 606.

Topic 606

The majority of the Company's contracts are recognized under Topic 606, which includes installation, operation, and removal of audio, video and lighting systems for special events, the sale and installation of audio, video and lighting systems at third-party venues, and the installation and removal of third-party audio, video and lighting systems for special events. Under Topic 606, the Company recognizes revenue upon completion of an event, or completion of installation for sold equipment. The amount of revenue recognized reflects the consideration the Company expects to be entitled to in exchange for such products or services.

Topic 840

For contracts to rent equipment, (Live revenue on the statements of operations), the Company recognizes revenue on a straight-line basis over the term of the rental agreement, which is typically less than one month.

Contract Costs

The Company does not recognize any assets associated with the incremental costs of obtaining a contract with a customer (for example, a sales commission) that management expects to recover. Most of the Company's revenue is recognized at a point-in-time or over a period of one year or less, and the Company uses the practical expedient that allows the Company to recognize the incremental costs of obtaining a contract as an expense when incurred if the amortization period of the asset that the Company otherwise would have recognized is one year or less.

Notes to The Financial Statements (Continued) Years Ended December 31, 2020 and 2019

Payment Terms

The Company's revenues do not include material amounts of variable consideration. The Company's payment terms vary by the type and location of the Company's customers and the products or services offered. The time between invoicing and when payment is due is not significant. The Company's contracts do not generally include a significant financing component. For certain products or services and customer types, the Company requires payment before the products or services are delivered to the customer. The Company's contracts with customers do not generally result in significant obligations associated with returns, refunds or warranties.

Cost of sales

The costs for live, audio, video and lighting integrations and event solutions consist primarily of labor, third party services and equipment costs.

Cost of leases excludes depreciation and amortization of equipment, customer lists, tradenames, and other depreciable assets, which are included separately in depreciation and amortization. Installation and maintenance costs associated with the lease contracts are expensed as incurred.

Use of Estimates

Timely preparation of financial statements in conformity with GAAP requires management to make estimates, such as salvage value of equipment, that affect reported amounts, which estimates may require revision in future periods.

Income Taxes

The Company, with the consent of its shareholders, has elected to be taxed as an "S" corporation, which is a pass-through entity under the Internal Revenue Code, and the Company's income (or loss) is taxed (or benefit) directly to its shareholders. Since there are no known circumstances that could place the Company's status as a pass-through entity in jeopardy, management has concluded that there are no uncertain tax positions, as defined by GAAP, requiring recognition or disclosure in the financial statements. Accordingly, no provision or liability for income tax has been included in the accompanying financial statements. However, primarily because depreciation allowable for income tax reporting purposes historically has exceeded the amount deemed appropriate for financial reporting purposes, the aggregate taxable income passed through to the shareholders is substantially less than the net income reported in the financial statements.

Federal tax returns that are subject to examination presently consist of those for tax years 2017 and thereafter. In the unlikely event that a tax or tax-related penalty or interest is assessed to the Company upon examination it would be charged to selling, general and administrative expense.

Notes to The Financial Statements (Continued) Years Ended December 31, 2020 and 2019

Fair value

Fair value is the amount that would be received in an asset sale or paid to transfer a liability in an orderly transaction between unaffiliated market participants. Assets and liabilities measured at fair value are categorized based on whether the inputs are observable in the market and the degree that the inputs are observable. The categorization of fair value within the valuation hierarchy is based on the lowest level of input that is significant to the fair value measurement. The hierarchy is prioritized into three levels (with Level 3 being the lowest) defined as follows:

Level 1: Quoted prices in active markets for identical assets or liabilities that the entity has the ability to access.

Level 2: Observable inputs other than prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated with observable market data.

Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets and liabilities. This includes certain pricing models, discounted cash flow methodologies, and similar techniques that use significant unobservable inputs.

Advertising

Advertising expenses, which totaled \$69,099 and \$87,478 for the years ended December 31, 2020 and 2019, respectively, are recognized when incurred and included in selling, general and administrative expense.

Reclassifications

Certain reclassifications to prior year amounts have been made to conform to the current year presentation.

New accounting pronouncements not yet effective

The FASB has issued new guidance for lease accounting, which becomes effective in the fiscal year ending December 31, 2022 for the Company. For revenue contracts where the Company is the lessor, management has concluded that no significant changes are expected to the Company's revenue accounting upon adoption of Topic 842, *Leases*. For lessees, it will require recognition of a right of use asset and a corresponding lease liability for both finance and operating leases. The Company is currently assessing the impact that the adoption of this guidance will have on its financial statements and disclosures when the pronouncement becomes effective.

U.S. Federal Payroll Protection Program Loan

U.S. Federal Payroll Protection Program Loan requires monthly payments beginning in April 2021 of \$49,972 with interest at 1% maturing in 2026. The application for these funds required the Company to, in good faith, certify that the current economic uncertainty made the loan request necessary to support the ongoing operations of the Company. This certification further requires the Company to take into account its current business activity and its ability to access other sources of liquidity sufficient to support ongoing operations in a manner that is not significantly detrimental to the business. The receipt of these funds, and the forgiveness of the loan attendant to these funds, is dependent on the Company having initially qualified for the loan and qualifying for the forgiveness of such loan is based on the Company's future adherence to the forgiveness criteria. Management expects that approximately 50% of this loan will be forgiven under the forgiveness criteria, but terms and the actual amount that will be required to be repaid could change as legislation changes rules as the pandemic continues.

Item Notes:

- 1. **Total Bank Accounts:** The Liquidation Analysis assumes a 100% recovery of cash in Company bank accounts as of the filing date; however, the cash balances in these accounts would likely be materially lower upon conversion to a Chapter 7 due to the Company's current cash burn rate.
- 2. **Total Accounts Receivable:** Accounts receivable consists primarily of receivables from live event-related customers. The Liquidation Analysis assumes recoveries between 70% and 90% for receivables that are aged 1-60 days past due. Any receivables that are 61+ days past due are deemed to be uncollectible and have an estimated recovery of 0%.
- 3. **CPU, Electronic, Software:** Includes various Company electronics and software. These assets are over 3-5+ years old with recoveries estimated to range from 4% to 6% of book value.
- 4. **Furniture & Other:** Includes office furniture, appliances, and other warehouse equipment. These assets are over 5+ years old and estimated recoveries range from 7% to 11% of book value.
- 5. **Total Live Production Equipment Value:** Includes professional audio, video and lighting equipment. A third-party appraisal, attached as an exhibit to the plan, was performed by an AV Industry expert and determined the value of the Company Live Production Equipment in a forced liquidation was in the range of \$3.75 million and \$3.9 million depending on the condition of equipment and completeness of inventory list
- 6. **Vehicles:** Includes various Company owed trucks, trailers and vans. Based on age and condition, estimated recoveries for these assets range from 44% to 53% of book value.
- 7. **Total Other Assets:** Includes Intangible Assets, primarily Goodwill, and security deposits for three office / warehouse leases. These assets would achieve recoveries of 0% under a Chapter 7 liquidation.
- 8. **Liquidation Costs / Wind-down Costs:** Any costs and expenses associated with the liquidation of any tangible assets by an assignee for Assignments for the Benefit of Creditors (ABCs).
- 9. **DIP Loan Paydown:** The DIP Loan Paydown assumption is based upon amounts potentially drawn on the DIP Loan at the time a Chapter 7 conversion takes place.
- 10. **Sales Tax:** Statutorily imposed on the sale, transfer, barter, licensing, lease, rental, use or other consumption of tangible personal property in Nevada. Nevada has state sales tax of 4.6%. Clark County sales tax is an additional 3.78%. Total sales tax is 8.38%.
- 11. **Chapter 7 Trustee Fee:** Cost estimate associated with a Chapter 7 Trustee's role overseeing a liquidation of the Estate's assets.
- 12. **Chapter 7 Professional Fees:** Includes costs for counsel, accounting services and other industry professionals. The Liquidation Analysis assumes between two and four months of professional fees are incurred.
- 13. **General Unsecured Claims:** The Plan of Reorganization states non-priority unsecured creditor claims of \$2,910,990.44. This total does not include the 502 (b)(6) estimate, d&b audiotechnik Corporation and

ROE Visual US, Inc. claims listed on the General Unsecured Claims portion of the Liquidation Analysis. These claims will be paid via Executory Contracts.

3G Productions AV Asset Liquidation Value

June 1, 2021

3G Productions, Inc. Mr. Keith Conrad 2895 W Capovilla Ave #140 Las Vegas, NV 89119

Dear Mr. Conrad,

The purpose of this letter is to provide you with our professional opinion of the liquidation value of 3G Productions Inc.'s current audio visual and live entertainment equipment inventory. As an industry leader in Professional Audio-Visual equipment sales, refurbishment, brokerage, asset disposition / liquidation, AV asset recovery, remarketing and secondary market sales and procurement, AVGear has been exclusively serving the Pro Audio-Visual industry since 2015 both, nationally and internationally. Our management team has over 50 years of combined experience in the industry.

Based on our professional review and analysis of the audio visual and live entertainment assets listed on **Exhibit A**, coupled with consideration of the current conditions and projections for the Pro AV secondary market, as well as the assumptions and limiting conditions of the listed assets, it is our opinion that the immediate liquidation value would range from \$3,750,000 to \$3,900,000, depending on the equipment condition and the completeness of the list.

Should you wish to proceed with liquidation, we would consolidate / remove all of the equipment within 30 days with 50% down, and pay the remaining balance upon inspection, roughly 30 days after this date. This offer is good until June 15, 2021.

We appreciate the opportunity to provide you with our services, and hope that we have satisfied your needs as your value-added service provider.

Very Truly Yours

Gill Hayon President
